## EDUCATION

### Indian Institute of Information Technology, Kottayam

Bachelor of Technology - Computer Science and Engineering

Kerala, India

Dec. 2020 – Apr. 2024

## EXPERIENCE

### Software Engineer II

Cyware Labs Pvt. Ltd.

Aug 2025 – Present

Bangalore

- Designed and implemented a lightweight **File Streaming Service** in **Go**, enabling efficient large file transfers across backend services and frontend, reducing memory consumption by **35%**.
- Collaborated with multiple backend teams to integrate the service within existing microservices, improving data throughput and system scalability.

### Software Development Engineer

Cyware Labs Pvt. Ltd.

Dec 2023 – Aug 2025

Bangalore

- Spearheaded STIX Validator enhancements, boosting data validation accuracy by **40%**, implementing robust logging for audit trails, and optimizing manual intel ingestion, increasing analyst efficiency by **30%**.
- Back-synced the publishing of **120M+ intel objects** for an air-gapped customer, ensuring timely data delivery to subscribers and enhancing the organizational security of the client's subscriber base.
- Revamped the feature of IOC Parsing and increased the performance by **90%**.
- Consistently recognized for exceptional performance and ownership, earning multiple accolades, including the **Early Champion and Spot Award** for delivering high-impact results and demonstrating strong initiative.

### Software Engineer Intern

Medvolt.ai

June 2023 – Dec 2023

Remote

- Revamped the organization onboarding procedure, streamlining client integration and reducing onboarding time by **25%**.
- Enhanced Hit To Lead module, supporting both New Chemical Entity (NCE) and standalone versions, reducing drug discovery time by **3x** and cost by **15x**.

## PROJECTS

### BigSy (SIH 2022 Winner) | Python, FastAPI, React, Elasticsearch

Developed a high-performance search tool enabling analysts to efficiently search and ingest data from diverse sources.

- Performance:** Achieves an average query time of **150ms** across a dataset of over **1.5 million documents**.
- Compatibility:** Supports search across **30+** media file formats, ensuring broad accessibility to varied data types.
- Real-World Use Case:** Used by Madhya Pradesh Police to help in threat analysis.

### Partners In Crime (Web Development) | ReactJS, FastAPI, MongoDB, Firebase, Vercel, Heroku, Selenium, Beautiful Soup

- Usage:** Empowered a growing community of IIITK developers, actively facilitating participation in hackathons and collaborative projects.
- Features:
  - \* Aggregates hackathon listings from MLH, Devpost, and Devfolio, updated with an average of **120+** listings a week.
  - \* Implements a high-performance search algorithm for targeted discovery, with the ability to support search over **400k+** profiles.

## TECHNICAL SKILLS

**Domains:** Backend Development, Frontend Development, Agile Methodologies.

**Languages:** Python, Go, JavaScript, C++, Java, C, HTML, CSS.

**Frameworks:** FastAPI, Django, React Native, React, Next.js, Node.js, Spring Boot.

**Developer Tools:** Git, Docker, AWS, Kubernetes.
